Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 20 December 2004.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

Disposition of Claims

- 4) ☒ Claim(s) 14-19 is/are pending in the application.
- 4a) Of the above claim(s) _____ is/are withdrawn from consideration.

DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 14-19 rejected under 35 U.S.C. 102(b) as being anticipated by Milgram et al. (U.S. Patent No. 5,175,616).

With respect to claim 14, Milgram et al. disclose a stereoscopic video-graphic coordinate specification system including an alignment target having a first optical feature a fixed distance from a second optical feature (see e.g. Fig.1, item 64 and col. 13, lines 1-19), an imaging device that can form an optical image of the alignment target with the first feature in-focus at a distinct location and size in the image and the second feature out-of-focus at a distinct location and size in the image (see e.g. Figs 5A-11E and col. 5, lines 38-62, cols. 17-20), whereby the location and size of the first feature in the optical image and the location and size of the second feature in the optical image are measurements of up to three orthogonal positions and up to three orthogonal orientations of the alignment target with respect to the imaging device (see e.g. col. 12, lines 28-50 and Fig. 5B).

Art Unit: 2863

3. With respect to claims 15-19, Milgram et al. disclose the invention as claimed including a cross hair (see e.g. col. 12, lines 18-20), the imaging device comprises a lens, camera (see e.g. col. 13, lines 62-68), a screen, monitor, and a computer connected to the imaging device, (see e.g. Fig. 1).

Response to Arguments

4. Applicant's arguments filed 12/20/04 have been fully considered but they are not persuasive.

5. In response to applicant's argument that the references fail to show certain features of applicant's invention, it is noted that the features upon which applicant relies (i.e., a pointer image generated in software. The pointer generator places optical features in the camera images by means of software- there are no real objects placed in the view such as a physical alignment target attached to an object, Milgram does mention a crosshair but it is in software not a physical object) are not recited in the rejected claim(s). Although the claims are interpreted in light of the specification, limitations from the specification are not read into the claims. See *In re Van Geuns*, 988 F.2d 1181, 26 USPQ2d 1057 (Fed. Cir. 1993).

6. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not

Art Unit: 2863

mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
